End Application:

T-45

Product Name:

Anti-skid, breakout box

Special Features:

Anti-skid breakout box is required to functionally test the caution circuit indicators at 0-level by simulating anti-skid system failures at the anti-skid control box. This is accomplished by simulating failed anti-skid system components by providing either shorts or opens between various pins of the aircraft wire bundle connector 8p3205 which mates with the connector of the anti-skid control box

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
