**End Application:**

T-45

**Product Name:**

Anti-skid, breakout box

**Special Features:**

Anti-skid breakout box is required to functionally test the caution circuit indicators at 0-level by simulating anti-skid system failures at the anti-skid control box. This is accomplished by simulating failed anti-skid system components by providing either shorts or opens between various pins of the aircraft wire bundle connector 8p3205 which mates with the connector of the anti-skid control box

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
