End Application:
T-45
Product Name:
Anti-skid, breakout box
Special Features:
Anti-skid breakout box is required to functionally test the caution circuit indicators at 0-level by simulating anti-skid system failures at the
anti-skid control box. This ia accomplished by simulating failed anti-skid system components by providing either shorts or opens between
various pins of the aircraft wire bundle connector 8p3205 which mates with the connector of the ant-skid control box
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
