End Application:

F/a-18

Product Name:

Tool set, intallation/extraction

Special Features:

The tool set contains a body tool, a pin extraction tool, a pin installation tool, and a striker. The body tool is also used to push the rfi valve insert firmly into the reamed bore of the manifold. The pin installation tool is then used to press the expander pin into the valve body so that the external lands bite the cavity wall to seal and lock the insert in place.
