Demand Oxygen Regulator Test Stand - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-491-0358

Mounting Type:
Bench
End Application:
B-2 aircraft
Product Name:
Test stand, eos and bos regulator
Functional Classification:
Aa-8.17
Special Features:
32 in w, 34 in h, 24 in d. Steel and polycarbonate enclosure with stainless steel components and lines
Functional Description:
Test stand for testing breathing oxygen system (bos) and emergency oxygen system (eos) regulators of oxygen generation and distribution
system (ogads)
Reference Data And Literature:
Serd 4269 b7720
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T361-f
