Mounting Type:

Bench

End Application:

B-2 aircraft

Product Name:

Test stand, eos and bos regulator

Functional Classification:

Aa-8.17

Special Features:

32 in w, 34 in h, 24 in d. Steel and polycarbonate enclosure with stainless steel components and lines

Functional Description:

Test stand for testing breathing oxygen system (bos) and emergency oxygen system (eos) regulators of oxygen generation and distribution system (ogads)

Reference Data And Literature:

Serd 4269 b7720

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-f
