**Mounting Type:**

Bench

**End Application:**

B-2 aircraft

**Product Name:**

Test stand, eos and bos regulator

**Functional Classification:**

Aa-8.17

**Special Features:**

32 in w, 34 in h, 24 in d. Steel and polycarbonate enclosure with stainless steel components and lines

**Functional Description:**

Test stand for testing breathing oxygen system (bos) and emergency oxygen system (eos) regulators of oxygen generation and distribution system (ogads)

**Reference Data And Literature:**

Serd 4269 b7720

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T361-f
