End Application:

F/a-18 aircraft

Criticality Code Justification:

Agav

Functional Description:

Used to repair the electrically controlled hydraulic servocylinders for actuating the aileron and rudder flight control surfaces; used to install the seals during overhaul or repair of the cylinder and lvdt assembly, they must be compressed within their respective grooves to prevent them from being damaged as the end gland is installed over the piston rod-this fixture will satisfy this

Reference Data And Literature:

Serd no 6386

Shelf Life:
