A Tool Installation - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-493-3107

End Application:
F/a-18
Product Name:
Tool, installation
Special Features:
The tools consist of the two speical bolts and a striker. Each bolt is sized to engage threads in either the pin or the plug body inserted into the
manifold cavity. The striker slides on the shaft of the bolt and is used to strike the bolt head, driving out either the pin or the plug. A third tool
is then used to press the new pin into the replacement plug, so that the lands of the plug bite into the surrounding material to seal and lock
the insert in place.
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
