End Application:

F100-pw-220/220e turbine engines

Product Name:

Adapter, polish, forward inner diameter 1st stage turbine disk

Special Features:

Consists of 4 detail polishing adapters and is fabricated from aluminum with upper universal connector plate, quick connect receiver bushings, a lower polishing foot

Functional Description:

To polish the 1st stage turbine disk surfaces to service limits; used with pwa71991 and pwa73671

Reference Data And Literature:

Serd 9439

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
