| Design Type:   |
|--|
| Bench  |
| Maximum Tilt From Horizontal Position In Deg:                                      |
| 15.0   |
| Table Top Leveling Device:   |
| Included   |
| Vernier Tilting Scale:   |
| Not included   |
| Vernier Angular Scale:   |
| Not included   |
| Special Features:  |
| Length 10.25 in.; width 10.25 in.; heigth 9.64 in.                                 |
| Functional Description:  |
| Used to test gyros on 3 axis, and is capable of inertial sensing and rating motion |
| Material:  |
| Aluminum   |
| Material:  |
| Aluminum   |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:   |
|  |
| Demilitarization:  |
| No   |
| Fiig:  |
| T361-g   |
