**End Application:**

B-1b aircraft

**Nominal length:**

8.540 inches

**Nominal width:**

2.800 inches

**Nominal height:**

2.500 inches

**Special Features:**

Assigned item name: vacuum support bracket

**Functional Description:**

Supports skin and locates holes for reaming process

**Relationship To Similar Equipment:**

Similar to -001 with same ht, width, hole sizes, and hole spacing but is shorter to allow for limited space of inner bay

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
