End Application:

F404-ge-jet engine

Criticality Code Justification:

Agav

Special Features:

C/o air starter air inlet adapter assembly to adapt to facility air supply-starter drive shaft power take off adapter and shear screws to mate the speed increaser to the engine pto output shaft; accessory set provides all of the items required to interface the starter to the facility air supply-and the speed increaser with the engine pto during the start sequence to provide the necessary rotational power to achieve the engine starting speed (50% of n2)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
