Overall Length:

6.000 inches

Overall Height:

4.000 inches

Overall Width:

8.000 inches

End Application:

Support equipment for uh-1y/ah-1z aircraft

Criticality Code Justification:

Agav

Product Name:

Inavy) spacer assembly, pitch change adapter

Special Features:

Jspacer assembly consists of two pieces of formed rubber that wedge on the top and outboard sides of the yoke and fills the void between the top of the yoke and the adapter; two piece design fits on either side of the installed blade stop on the aircraft hub; left and right spacers are differenct shapes to fill the two differently shaped voids; the two formed rubber pieces restrain the adapter in it's neutral position and prevents movement allowed by the dampers
