Overall Length:

12.000 inches

Overall Height:

3.800 inches

Overall Width:

0.125 inches

End Application:

F110-ge100/129/400

Product Name:

Template, contour axial-exhaust nozzle primary flap

Special Features:

Initial p/n "I250168c"; used on p/n 9538m17g03 and 9539m85g06; 55-60 rc

Functional Description:

Used with 3r1403g01 and 0.005 in shim to inspect wear of exhaust nozzle primary flap cam track, if worn build up weld and hand grind to templates contour

Material:

Stainless steel

Reference Data And Literature:

Serd no. 6180

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
