Overall Length:

1.600 inches

Overall Height:

0.125 inches

Overall Width:

1.300 inches

End Application:

F110-ge-100, -129, -400 engines

Product Name:

Template, contour circumferential, exhaust nozzle primary flap

Functional Description:

Used to inspect worn exhaust nozzle primary flap cam tracks for wear. Template is used with cam track axial contour template 3r1404p01

Material:

Steel

Reference Data And Literature:

Serd 6179

Relationship To Similar Equipment:

Prototype for this marked with suffix dev. Alternate part is l250168b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
