Overall Length:

18.500 inches

Overall Height:

7.250 inches

Overall Width:

14.000 inches

Dc Voltage Rating:

9.0 volts

End Application:

F-15c-2-28gs-00-1

Adjustment Method:

Rotary switch

Test Item Connection Method:

Cable

Switch Quantity:

2

Product Name:

F15 fq interface unit

Functional Description:

Used in combination with a psd30-2af dc capacitance tester or psd90-1c ac/dc capacitance tester to measure the capacitance or insulation resistance of any tank or fuel probe. Operates as stand-alone to simulate internal or external full tanks and low level or fuel shutoff thermisters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
