End Application:

F100-pw-220

Nominallength:

15.000 inches

Product Name:

Fixture

Nominalwidth:

15.000 inches

Nominalheight:

7.000 inches

Special Features:

Tool is made of material that expands at the same rate as p/n4035948, it also features graphite constraint rings and when p/n4035948 is a plastic state this fixture will realign and maintain specific dimensions per t.O. 2j f100 13-7-1 wp 425 00

Functional Description:

This heat treat fixture is used to maintain dimemnsions of p/n4035948 full oven heat treat

Reference Data And Literature:

Serd 9706; t.O. 2j f100 13-7-1 wp425 00

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
