End Application:

F-16 a/b/c/d

Test Item Connection Method:

Cable

Special Features:

Dim's are 9 x 18.5 x 5.5, 45 lbs

Functional Description:

Used for electrical and mechanical interface between the r-iais test station, ita interface unit, the lru cable assemblies and supports icdp on the r-iais.

Reference Data And Literature:

Serd no. 74e13

Supplementary Features:

Company item name-adapter interface, enhanced upgraded programable display generator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
