Overall Length:

9.000 inches

Overall Height:

18.500 inches

Overall Width:

5.500 inches

End Application:

Multifunction color display f-16

Test Item Connection Method:

Cable

Special Features:

Requested name ita color multifunction display, c/o ita panel, mfcd test cable and direct measurement microscope

Functional Description:

Used to fault isolate the display assembly, low voltage power supply cca, input/output controller cca, video cca, scan converter cca, analog interface cca, chassis and harness assembly

Reference Data And Literature:

Serd 74e17 rev b

Supplementary Features:

Used with r-iais test station and programmable video generator, input power 28 vdc, 5vrms, 400hz single phaseuses test software programs and identification features to preclude implementing an incorrect test program

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A537k0
