Overall Length:

16.000 inches

Overall Height:

23.000 inches

Overall Width:

9.000 inches

End Application:

C-17

Test Item Connection Method:

Cable

Product Name:

Interconnection device

Functional Description:

To provide mechanical and electrical interface between the c-17 cate andthe uut during testing and fault isolation

Material:

Aluminum alloy case and steel case

Reference Data And Literature:

Serd 570794

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
