End Application:

C-17acft

Nominal length:

17.000 inches

Nominal width:

21.000 inches

Nominal height:

9.000 inches

Special Features:

5part name assigned by controllingagency was fixture assembly, holding. The fixture is finished in accordance with mil-c-5541 or equivalent boeing process dps9.45. These process specify chemical conversion coating for aluminum and aluminum alloys

Functional Description:

The holding fixture will provide a stable base for the uut and provide a means for connections to the connectors on the uut. It will also provide a means to route cooling air to the uut and connection of the safety ground cable

Unpackaged Unit Weight:

12.000 pounds

Reference Data And Literature:

Serd 570793

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
