Overall Length:

6.000 inches

Overall Height:

0.820 inches

Overall Width:

4.129 inches

Special Features:

Material is aluminum alloy 6061-t651 inw qq-a-250/11; surface treatment is an irredescent yellow chemical film iaw mil-c-5541, class 3; item has 3 helical coil inserts (0.138-32-unc-2b) along bottom edge of face; has 2 helical coil inserts (0.164-32unc-2b) one on each side of a 3.000 inch diameter hole on face of item; has 6 helical coil inserts (0.164-32unc-2b) 3 each on either side, outside edge of item; has 11 helical coil inserts (o.112-40unc-2b) on underside edge around perimeter

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
