Overall Length:

130.000 inches

Overall Height:

16.000 inches

Overall Width:

0.500 inches

End Application:

F100-pw-100/200/220/220e/229 aircraft engines

Special Features:

Smr code pefffu. T.O. 2j-f100-53-6 wp 702, 702 (depot) vertical; t.O. 2j-f100-56-6 wp 702, 702 (intermediate)(vertical); t.O. 2j-f100-56-5 wp 112, 114, 116 (intermediate)(horizontal)

General Description:

An insulating blanket is required to retain the heat in the engine parts, and allows for quicker heat up times

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
