Overall Length:

3.500 inches

Overall Height:

15.500 inches

Overall Width:

19.000 inches

Special Features:

Oset is required to simulate the synchro input to the differential synchro transmitter meeting the following requirements: resolution 5deg, accuracy 0.001 deg, input voltage 26 v 400 hz ac, and output voltage 11.8 v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
