End Application:

Specialized ground servicing equipment; multi-aircraft applicability

Product Name:

Advanced boresight equipment (abe) model 310

Special Features:

The aircraft boresight unit c/o reference unit, measurement unit, handeld display unit, system controller, interface cable assemblys in two cases 28"l x 32"w x 24"h ea, total weitht 195 lbs, finish: olive drab, design: mil-t-28800d, class 2 modified, 120 volts, 60.0 hertz, single item with carrying case, boresight verifications of the heads up display and inertial reference unit, abe must meet the following specifications range: +/-10.0 minutes for all three axes, accuracy +/-0.86 minutes for all three axes

Reference Data And Literature:

Air force serd 570806

Supplementary Features:

Aircraft elect power supplied to the abe system through a 30ft power cable with wc596/13-3 or equivalent mating plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
