End Application:

Tf39

Specific Usage Design:

Basket to support and rotate the tf39 ht90, high pressure turbine rotorstage 1, lead and trail blades

Nominallength:

24.360 inches

Product Name:

Rack, rotating blade tf39

Nominalwidth:

13.500 inches

Nominalheight:

37.300 inches

Functional Description:

Used to hold blades for cleaning and rotating to remove air pockets

Reference Data And Literature:

Serd 6459

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
