Nominal length:

9.000 inches

Product Name:

Fixture assembly-multifunction display

Nominal width:

14.000 inches

Nominal height:

19.000 inches

Functional Description:

Provides a stable base and cooling for the various lru's i-level software loading operations

Reference Data And Literature:

Serd no. 570797

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
