**End Application:**

F100-pw-229

**Nominallength:**

9.500 inches

**Product Name:**

Fixture, shotpeen-disk and hub, comp 6th stg

**Nominalwidth:**

9.500 inches

**Nominalheight:**

9.800 inches

**Special Features:**

Stainless steel; used with pwa72695; pwa57398; pwa51371

**Functional Description:**

Used during shotpeen of 6th stagecompressor disk and hub tierod holes

**Reference Data And Literature:**

Serd 9479

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
