Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Major Components:

Test stand; spring scale; spring compressor; plug assembly; outlet bleed orifice assembly; 8 adapters

End Application:

F-16 aircraft

Electrical Power Source Relationship:

Operating

Inclosure Feature:

Single item w/housing

Product Name:

Test stand, inlet valve, high pressure

Reference Data And Literature:

Manufacturer drawing 6600232-6021

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
