**End Application:**

Tf39 engine se

**Accessory Components And Quantity:**

1 cable, 12 ft 10 inches long

**Product Name:**

Manifold, slave - pt 5.4

**Functional Description:**

Used to transmit pressure pt5.4 equivalent signal from the engine to measuring instrumentation of a test facility during off-wing testing

**Reference Data And Literature:**

Serd 1569

**General Description:**

Supports probe, total pressure (sensor) turbine midframe, pn: 9123m19g01

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
