End Application:

Tf39 engine se

Accessory Components And Quantity:

1 cable, 12 ft 10 inches long

Product Name:

Manifold, slave - pt 5.4

Functional Description:

Used to transmit pressure pt5.4 equivalent signal from the engine to measuring instrumentation of a test facility during off-wing testing

Reference Data And Literature:

Serd 1569

General Description:

Supports probe, total pressure (sensor) turbine midframe, pn: 9123m19g01

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
