**Application Design:**

Indicator

**Width:**

22.800 inches

**Component Quantity:**

5

**Component Name:**

Two arbitrary waveform generators; switch control/mainframe; n2264a multifunction module; high speed rf switch

**Product Name:**

Unit 4, general purpose ew end-to-end tester

**Special Features:**

Interfaces utilize inc connectors; depth 26.0 inches; weight 75 lbs; color olive drab; operating temperature 0 degrees celsius to 50 degrees celsius

**Height:**

12.200 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T358-a
