Application Design:

Indicator

Width:

22.800 inches

Component Quantity:

5

Component Name:

Two arbitrary waveform generators; switch control/mainframe; n2264a multifunction module; high speed rf switch

Product Name:

Unit 4, general purpose ew end-to-end tester

Special Features:

Interfaces utilize inc connectors; depth 26.0 inches; weight 75 lbs; color olive drab; operating temperature 0 degrees celsius to 50 degrees celsius

Height:

12.200 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
