Nominal length:

18.000 inches

Product Name:

Fixture, masking-compressor stator

Nominal width:

12.500 inches

Nominal height:

6.500 inches

Special Features:

No supporting tool required; no spare parts recommended

Functional Description:

Used to mask the compressor stator casing during grit blasting and metal spray coating

Unpackaged Unit Weight:

52.000 pounds

Reference Data And Literature:

General electric t700

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
