End Application:

C-17a support equipment

Product Name:

Interconnection device interface, test adapter, soc

Special Features:

Consists of 17g721629-3: resistorboard assembly, 17g691560-1: resistor board, 17g725620-1: housing, dsc-644-l-1: microcircuit, sn54ls244j: buffer driver, 2149: standoff, 510108131: module signal, 510108132: module, mini-coax, 510108138: module, twinaxial, 510108173: module, signal, 510108215: module, mini pwr

Supplementary Features:

Effectivity gse001-200

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
