End Application:

C-17a support equipment

Product Name:

Interconnection device-interface test adapter, fl purity cont

Special Features:

Consists of 17g491534-3: resistorboard assembly, 17g491534-5: resistor plate, 17g491534-7: resistor plate assembly, 17g491534-9: resistor plate, 17g491534-11: resistor plate assembly, 2149: standoff, 2152: standoff, 510108131: module, signal, 510108132: module, mini-coax, 510108178: module, signal, 510108215: module, mini power, 510134101: module, signal

Supplementary Features:

Effectivity gse001-200

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
