Width:
4.188 inches
Length:
8.625 inches
End Application:
Total aircraft
Electrical Power Source Relationship:
Self-contained Self-contained
Internal Battery Accommodation:
Included
Test Type For Which Designed:
To detect presence of open circuit in electrical cable and mesure distance to the fault in total inches, feet, or metric.
Product Name:
Esp plus refectome
Special Features:
Locate fault up to 1000ft., enlgish and metric display; no dc voltage produced by the esp meter; wires and cables connected to the esp
meter through a single bnc-type connector, a 6-foot lead set (bnc-f to bcn-m) and an 8-inch lead set with alligator clips are provided wiht each
meter; meter equipped with replaceable rubber boot; is a stand alone hand hel device with a 6vdc lithium ion battery; operational
penvironements -20 degrees c to +60 degrees ccertified to military standard 810 method 511.3 standards for explosive environements;
maximum ac output voltage output of esp meter is 2vac peak to peak
Height:
2.500 inches
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
Fiig:
T228-a
