End Application:

Test stand a/m37t-20

Criticality Code Justification:

Czdh

Nominallength:

12.800 inches

Product Name:

Pin assembly

Nominaldiameter:

3.500 inches

Special Features:

Heat treated corrosion resistant steel, rockwell c 40-48 with bright nickel coating, fluorescent inspected, 2 each required for use

Functional Description:

Secures yoke to aft part of f110-ge-100 engine while on test stand

Reference Data And Literature:

Drawing 9458m13 from cage 07482

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
