End Application:

C-17 aircraft

Component Quantity:

5

Product Name:

Adapter, test, interface-sensor signals indicator

Special Features:

Consists of the following part numbers: 17g121616-1, 17g121507-1, 17g121525-1, 17g121526-1, 17g571512-501

Functional Description:

Eprovides a comprehensive stimulus, measurement, and processing capability for performing diagnostic and operational testing; interfaces between c-17 automatic test equipment and the unit under test

Reference Data And Literature:

Serd no. 120591

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
