Overall Length:

4.000 inches

Overall Height:

1.000 inches

Overall Width:

2.000 inches

End Application:

C-17 aircraft cargo ramp support equipment

Product Name:

Tool, rigging-ramp locking mechanism

Functional Description:

Provides means of verifying the required over-center alignment of cargo ramp locking mechanism. Tool is placed over bolts of the connecting linkss to verify proper location of the links

Color:

Red

Material:

Aluminum

Reference Data And Literature:

Serd 110640

Surface Treatment:

Paint

Supplementary Features:

Remove before flight streamer not included, to be attached by user

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
