Aircraft Engine Maintenance Machining Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-531-5515

End Application:
F100-pw-100/200/220/220e aircraft engines
Product Name:
Set ring
Special Features:
Steel material
Functional Description:
Used during machining process of the forward snap diameters of the intermediate case
Reference Data And Literature:
Pratt & whitney drawing pwa72581
Relationship To Similar Equipment:
COMP-ON-ENT-OF49
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
