End Application:

F100-pw-100/200/220/220e aircraft engines

Product Name:

Set ring

Special Features:

Steel material

Functional Description:

Used during machining process of the forward snap diameters of the intermediate case

Reference Data And Literature:

Pratt & whitney drawing pwa72581

Relationship To Similar Equipment:

COMP-ON-ENT-OF49

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
