| End Application:   |
|--|
| Fixture, engine maintenance, aircraft (4920-01-522-2393)                             |
| Nominallength:   |
| 7.380 inches   |
| Product Name:  |
| Locating bung  |
| Nominalheight:   |
| 2.500 inches   |
| Special Features:  |
| Harden to rockwell "c" 40-45.  |
| Functional Description:  |
| Used to constrain the 4th stage turbine disk for inspection of front snap diameters. |
| Reference Data And Literature:   |
| Serd 9861; 2j-f100-13-9  |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:   |
|  |
| Demilitarization:  |
| No   |
| Fiig:  |
| A505c0   |
