**End Application:**

F100-pw-100/200/220/220e aircraftengine

**Criticality Code Justification:**

Feat

**Product Name:**

Fixture

**Special Features:**

Critical application f100-pw-220 aircraft engine

**Functional Description:**

Used to constrain the 1st stage compressor air seal (p/n 4081405) during machining operation of diameter c & b on front and rear face of seal

**Reference Data And Literature:**

Serd no. A058

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A505c0
