**Overall Length:**

11.500 inches

**Overall Height:**

4.000 inches

**Overall Width:**

11.500 inches

**End Application:**

F100-pw-100, -200, -220, -220e

**Criticality Code Justification:**

Agav

**Product Name:**

Adapter ring, shot peen

**Functional Description:**

Cover and protect the front of the 1st stage compressor disk (p/n 4071701) during the shot peen process of the outer rim blade slots

**Reference Data And Literature:**

Serd a017

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
