Overall Width:

42.000 inches

End Application:

Used in aircraft composite structural products

Material:

Plastic and err-030

General Description:

Graphitefabric/epoxy resin plain weave; 350 degrees f cure; 500 ksi tensile strength; 45 msi elasticity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
