End Application:

Australian government

Special Features:

Clock pod configuration: logic level support; output type: 10h125 with 47 ohm series-true and inverted; 100 mhz output rate; out delay of 11 ns in 9 steps; input type ttl-10h124; input rate of dc to 100 mhz; clock in to clock out approximately 30ns

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
