Electro-optical System Components Test Stand - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-559-4100

Overall Length:
16.740 inches
Overall Height:
22.240 inches
Overall Width:
14.000 inches
End Application:
South korean government
Special Features:
The transport is the mechanical heart of the dash system; secures and precisely moves the camera; utilizes two motor/disc assemblies on
the horizontal and vertical axes to control the altitudinal and azimuthal angles of thecamera as it is oriented to view, measure and
characterize a hud or crt image
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A23900
