End Application:

Tf39 aircraft engine

Product Name:

Fixture, resize-combustor inner liner

Special Features:

Consists of 12 sections to be mounted in a circle on hydraulic fixture 2c7344 g08 rev h

Functional Description:

Used to restore the contour of the combustor liner inner after welding

Reference Data And Literature:

Serd 6497; dwg 1c7159

Relationship To Similar Equipment:

Version g01 has different gap and diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
